“We used to spend about 54 hours producing and updating reports on a monthly basis. With DataSelf, we cut down that time to two hours. The solution had an ROI in the first 30 days of usage. Running reports now take seconds versus hours.”

Jason Coleman, Director of IT / IMS East Coast Mechanical, Inc.

“I’ve been putting together sales reps’ territories dashboards. Our CFO was looking for something today and after losing two hours trying to get it out of our accounting package she had the data in minutes with DataSelf. She was thrilled!”
